Ironwood Institute, your pathway to Australian Universities

If your goal is to gain an Australian master's degree, studying at Ironwood Institute is an affordable and accessible way to achieve it. Ironwood has official arrangements with some of Australia's most prestigious universities.

Benefits of Ironwood and universities packages

Single visa

You can apply for packaged offer letters, CoEs and a single student visa from overseas for the entire duration of both programs.

Post-Study Work Rights

You are eligible for all standard benefits of a university graduate, including post-study work rights in Australia.

Vocational and University skillset

You benefit from Ironwood's vocational experience and the University's higher education learning, combining applied and theoretical knowledge with practical skills.

Better prepared for the higher education environment

Heading into an Australian university straight from overseas can be challenging. Ironwood provides smaller class sizes and individual academic support to build foundation for your university degree.

Pathways don't necessarily mean taking the 'long' way

Ironwood pathways will allow you to complete your Master's degree in a similar time frame as you would do by directly studying the entire program with the University.

Two qualifications

You graduate with two qualifications (Graduate Diploma and Master Degree).

Affordable fees

With Ironwood and university partners offering a variety of scholarships, you can achieve your master degree dream at an affordable fee

AMP80215 Graduate Diploma of Agribusiness offers pathways to four master degrees at the University of New England:

Qualification Description

This qualification provides a general vocational outcome in agribusiness. It reflects the role of individuals who apply substantial specialised knowledge and skills to the senior managerial and leadership role in an organisation or business area. In these roles they are required to generate and evaluate complex ideas, and to initiate, design and execute the major planning, research, design, operational, compliance and management functions within highly varied or specialised agribusiness contexts. Typically, they would have full responsibility and accountability for the personal output and work of others.

No occupational licensing, legislative or certification requirements apply to this qualification at the time of publication.

Units of Competency (Units)

Total Units = 8 Core units = 0 Elective units = 8

“ Harikrishna, India

Ironwood & University of Adelaide Pathway Student

The scholarship through Ironwood enabled me to take up the pathway to the University of Adelaide. By undertaking my first year at Ironwood, my transition to the second year of my Master's degree at the University of Adelaide was smoother, as I was well prepared for the academic requirements.

“ Pushpa, Nepal

Ironwood & University of New England Pathway Student

I graduated with a Bachelor of Science (Microbiology) from Nepal and studied the Graduate Diploma of Agribusiness with Ironwood for 12 months before beginning my Master of Science in Agriculture at the University of New England in 2021.

I found my studies at Ironwood and UNE to be both engaging and student-focused. They supported me academically and professionally on my student journey and I am now working with a major agri-food industry employer.

“ Jessica, Colombia

Ironwood & Torrens University Australia Pathway Student

My Graduate Diploma of Agribusiness at Ironwood played a primary role in solidifying my leadership and communication skills, as well as my strategic thinking. This course equipped me with the knowledge I needed to find a job in the Geochemistry industry. Additionally, I was looking for a package program that would allow me to complete a master's degree. With the university pathways that Ironwood offers, I have concluded my Master of Business Administration at Torrens University.

“ Soburu, Ghana

Ironwood & University of New England Pathway Student

I have studied my Bachelor in Agricultural Economics in Ghana and Master in Agriculture and Rural Development in the Netherlands. I always had a dream to study Master of Agriculture Science at a reputed Australian University, but it was unaffordable until I discovered the unique pathway of the Graduate Diploma of Agribusiness at Ironwood that leads to the second year of Masters of Science in Agriculture at the University of New England (UNE).

Because UNE recognised Ironwood's Graduate Diploma as a full year of credit, I could enter straight into the second year of the Master's Degree. This means I'll still complete my Master's degree in two years, but I've saved a lot of money on my fees. In addition, I'll gain two Australian qualifications, a mix of agribusiness and agriscience, that will make me highly employable in the global agrifood job market.

“ Binauti, India

Ironwood & University of Adelaide Pathway Student

With my Botany background, the Graduate Diploma at Ironwood helped me to learn important concepts related to leadership, innovation, finance, and agri-business skills and gave me a solid base to succeed in my Masters of Global Food and Agricultural Business. My time at Ironwood Institute and the University of Adelaide has been a truly international experience.

Why Ironwood Institute
